Customer Reviews

if you like satire and science fiction this series is for you. if you get caught up in details and have no imagination this series isn't for you. L Ron Hubbard isn't for everyone but personally I am fond of his style and his composition techniques. He is quite a strange and full character himself if you haven't checked him out. I am not a scientology believer, but this series has nothing to do with it. This series is all about calling out things he (L Ron Hubbard) disapproved of here on this rock we call earth. He basically, within the borders of an incredibly good story, makes fun of how ridiculous we can be as humans. quite funny and good. this book being one of my favorites along with the previous (book 9).

Just a great story especially revealing about what goes on in the world today. Enjoyed it very much.

Extremely entertaining book and even enlightening as to some of the tricks media uses to keep its circulation. This is the most enjoyable volume of the book. I enjoyed this read even more the second time having read these volumes when they were first published more than 30 years ago.

This story rings true, as any good satire should, in spotlighting the pitfalls of a society and bringing to light changes which would benefit it greatly.

When L Ron Hubbard set out to write this series, he wanted to write the biggest science fiction work ever written. At ten volumes, it is one of the biggest (if not THE biggest) science fiction work ever written. Brilliantly plotted, it is a delight to read. There is an element of satire running through the series. This must be one of the most underrated science fiction work of all time.

The best satirist since Mark Twain! This book should be required reading for everyone. It really tells you what is going on.

Love L Ron Hubbard's books
