1. Tanzania Travel Reference Map 1:1,370,000

Synopsis

The country of Tanzania is a vibrant economic powerhouse of East Africa. Touristically, it is one of the friendliest of countries, and has a treasure trove of game parks and historic towns to explore. Perhaps the greatest or best known game preserve is Serengeti, but my favourite is Ngogongoro Crater, an extinct but massive volcanic crater whose caldera houses thousands of animals and birds in comfort. Amboseli is also easy to explore, and for ruggedness, it is hard to beat Selous. For climbers, there is always Kilimanjaro, and off the coast are the ancient slaver islands of Zanzibar and Pemba, now touristic delights. This edition can't offer any dramatic new information. We have updated the road information showing the new east-west highway joining Dar to Lake Victoria via Dodomo, the new capital. 5th Ed. 2013 on waterproof paper Insets: Arusha, Dar Es Salaam, Zanzibar

Book Information

Map: 2 pages

Publisher: ITMB Publishing, Ltd.; 5th Revised edition edition (June 22, 2013)

Language: English

ISBN-10: 1553414438

ISBN-13: 978-1553414438

Product Dimensions: 5.6 x 0.2 x 9.8 inches

Customer Reviews

Easily folded and the lightly plasticized surface made it more sturdy to use out on a game drive and on the hood of the Landrover

Map has half of the country on one side, half on the other. I was hoping for all on one side to hang on our wall to study prior to our trip. Otherwise, high quality paper, good detail.

Looks pretty but lacks precise detail and accuracy. Example: Lake Ndutu on the southern border of the Serengeti is identified as Lake Lgana. There is no Lake Legana in Tanzania. Many other similar

errors.

Good map, pretty standard look.

Good map of Tanzania. I don't like the fact that all the map is not on one side. I would recommend it.

The map itself was fine - with one big exception. One side was printed with the southern half of Tanzania and the other side was printed with the northern island of New Zealand! Long swim from Dar to Auckland. Poor quality assurance by the printers. To be fair, I called the Canadian printers and they sent me a correctly printed map with both northern and southern Tanzania.

Good planned.

This map is beautiful, folds easily, and decently waterproof. Unfortunately, it is now quite out of date, and doesn't include several regions (and roads) which have been instated since it's printing in 2012. I'll be looking for a new version.
