Watch Your Junk And Other Advice For Expectant Fathers

Synopsis

Being a father is an amazing and dangerous experience. Don't go into it unprepared. Watch Your Junk and other Advice for Expectant Fathers tackles the subjects that other baby books ignore: - Why you shouldn't touch the wand in the sonogram room - The exact moment your opinion no longer counts - How friends and family will respond to the news - How TV and baby classes have lied to us - Which poop jokes to expect in the delivery room - How to convert diapers into usable guilt - How to insure your child says your name first And much, much more Watch Your Junk includes a special twin version of fatherhood in the event that you are so much a man that you knocked up your wife twice at the same time. Don't go into fatherhood unprepared, read Watch Your Junk and other Advice for Expectant Fathers today and know what to expect before it's too late. Originally released as The Dumb White Husband's Guide to Babies.

Customer Reviews

I gave this book to my faux son who is expecting a baby. He told me that he stayed up way too late on a work night because he couldn't put the book down! He said it is hilarious and totally helpful. It helped him see the humor in the suffering of his wife's difficult pregnancy. He felt a kinship with other men, a comfort and pride. He absolutely loved the book!

Watch Your Junk and Other Advice for Expectant Fathers by Benjamin Wallace is a hilarious book that kept me giggling through out the book! So many true things that he twists around to word it so that I had to laugh, giggle, or snicker on every page. I needed this book! Great job! As a woman, I wondered what he would say and it really didn't diss women, much, but is was hilarious! Funny as heck! It was free too, so I was double happy!

Sick of fatherhood books that give you a bunch of bulls*it info that probably does pertain to you? Or maybe that your author will throw in a little witty diddy like "your wife may wake up as angry as a grizzly bear each morning, but trust me this is no time to play dead!" hardy-har-har. This book is the answer to the plethora of fatherhood books you have been wading through looking for an enjoyable read. The author gives you some really great information, some that you may have heard in other books, and some that no other author would tell you because it would not be "proper". This book is for guys (and gals) who want to learn something but not be bored to tears reading through a daddy advice book. The author is funny, knowledgeable, and candid. He seems like a guy you might have beers with while on a baby play date. Thank you for this book Benjamin Wallace.

I bought this for my husband because the description of the book seemed like his kind of humor. Well, he loved it and read almost the whole book in one sitting! It's funny, but still gives factual and useful information...he was telling me things about pregnancy that I didn't know!

Hilarious and absolutely accurate about being a dad. My wife was frustrated because I kept having to read her "one more line."

In a field of dumb dad books, this book stands apart. Benjamin's humor and observations are witty and intelligent, and is definitely not meant for dumb dads. This is probably the perfect book for the smart guy in your life who is going to be a dad. Great mix of advice and humor, and a good way to ease yourself into the thicker "What to expect" type books.

BEFORE YOU BUY: please make sure you are looking for a guide to being a new father! That is indeed exactly what this is. This book is *not* a continuation of Ben's other short comedies whose covers look exactly the same as this. Although there is a bit of comedy used in the delivery (pun intended) of this material, that isn't the focus. For those who are looking for a male equivalent to the hundreds of books that are written by women and for women - this is it! It's definitely written by a man, for men. You will appreciate the honest and sometimes crude humor. Ben tells it straight, and he doles out some awesome advice, the kind that I wish I had someone tell me before my two kids were born. "Do not look at the vagina!" is about as blunt as he can get, and he's absolutely correct. Solid advice right there. So all you new Dads or about-to-be Dads, go ahead and dive in. Buy this book and learn a few things your friends may not have the guts to tell you.

Pregnant wife here. This was an amazing read! Sarcastic, funny, and poop-filled. It's like the easy parts of having a baby (there are easy parts, right? They exist? Please tell me they exist!). I laughed. Like hearty, scare-the-dogs, wake the neighbors laughed. I also cried, but I chock that up to hormones. I got this for my spouse, but I'm nosey, so I read it first. Now my spouse who hates reading about anything but weapons and boomsticks has to read it. Should be easy after the first chapter.
