Used for school and it was well written. Was very easy to work with and helped a lot while in class. Book was well constructed and provided easy access to look up information I needed! Got an A in the class so I think it was good to have it.

College class material

It has no answer page and too expensive. I had to buy because my class requires it.

Who likes grammar?

Very good book! Helped a lot in my studies!! Got an A!! this book taught me how to write correctly!!

this book is not very good, an old book and written on many words. I waited this book so long. So I think it is just so so.

Interesting book

The book is categorized as "good" condition, but when I received the book, it shocked me. It is far from be good at all. The cover is torn, and the worst of it is that most of the exercises has been marked with "answers." Such fact made the book "useless" for a student who is going to do the exercises.
