# Havana USA: Cuban Exiles And Cuban Americans In South Florida, 1959-1994

## Synopsis

In the years since Fidel Castro came to power, the migration of close to one million Cubans to the United States continues to remain one of the most fascinating, unusual, and controversial movements in American history. María Cristina García, a Cuban refugee raised in Miami, has experienced firsthand many of the developments she describes, and has written the most comprehensive and revealing account of the postrevolutionary Cuban migration to date. García deftly navigates the dichotomies and similarities between cultures and among generations. Her exploration of the complicated realm of Cuban American identity sets a new standard in social and cultural history.

## Book Information

Paperback: 239 pages

Publisher: University of California Press; Reprint edition (October 28, 1997)

## Customer Reviews

"There is very little in print on the subject of the Cuban American community, and most of what has appeared has been politically charged polemic. This balanced treatment fills a surprisingly large gap."--John Hoyt Williams, "History

María Cristina García is Assistant Professor of History at Texas A&M University.

Planning to order another one for a Xmas gift.

Not a lot of literature in this area. Clearly written for the non-Cuban audience. Author remains

objective throughout. Perhaps a little too objective. Generally, I would recommend it, especially for exiles like me who may have been away from Miami for much of the period covered by the book.

Havana USA is a very thorough account of post-revolutionary Cuban migration to America. One of the interesting aspects of Cuban emigration since Castro has been the perspectives given to us by the media and the government - many of them misleading. Garcia dispels these myths with facts backed up by my extensive research and personal interviews. A very interesting read.

Wonderful Text. Helps to rationalize and boost understanding on why Cubans living in Miami have such foreign behaviors in the eyes of the outsider. The author takes you by the hand, and walks you step by step. Absolutely wonderful and did an excellent job at steering clear of any bias.
