Customer Reviews

This is a very informative book especially for users out there. It explores the growing cycle of cannabis and also how to properly set up your lights to maximize health and growth of your plants. This guide will teach us a step by step on how to grow cannabis and much more we need to know about it. A must have!

Great Book The procedures provided in this book seems to be well researched. They are easy to follow and also detailed. A lot of images are provided so you know what to expect. One of the best books on cannabis you can find on the market.

perfect for beginners

Good book but not many pages. Kinda of basic knowledge. Great book for a beginner.

I am not happy with the length of time it took to get this book. The book contains just basic info that almost anyone who grows knows.

Great for beginners to learn about growing and harvesting. The pic also do help allot on what to look for

Good information!

Not that easy to grow this way
